IPBTN

Smart IP Button

Overview

Initiate an instant lockdown of a facility with the PoE Smart IP Button (IPBTN). It connects directly to the network as an endpoint to dial an extension or trigger an alert with the push of a button.

The IPBTN easily integrates with VoIP phone systems, approved 3rd party software, and includes ClockWise Campus software with purchase.

Description

NOTIFICATION

Trigger alerts that activate other devices, such as a strobe or electronic lock.

DUAL COMMANDS

Programmable button modes push/release or push/hold accommodate up to two extensions or phone numbers.

SIP INTEGRATION

SIP-enabled.
Dials a preset phone number to play a pre-recorded message.

MOUNTING

Easily mounts under a table, desk, or any discrete location.

SOFTWARE

ClockWise Campus software included. Compatible with approved third-party software.

LED BUTTON

Light blinks on button press. Light turns solid when either SIP call connects or notification delivered.
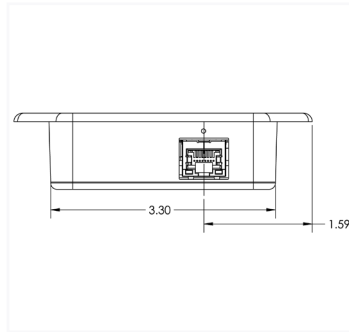

| Solutions	Additional Features	Compatible Peripherals
