SMART IP PANIC BUTTON
DISCREET

DATA SPECIFICATION SHEET

PART NUMBER: IPBTN-DIS

CATEGORY: SMART BUTTONS

PRODUCT OVERVIEW

Deploy the Smart IP Panic Button Discreet (IPBTN-DIS) to empower facility staff to initiate an instant emergency notification or lockdown without drawing attention in case of an active assailant incident.

As a PoE endpoint, it connects to the facility network as part of a mass notification system. It can signal an alert with a push of the button and activate other devices such as a strobe or an electronic door lock. It can also dial a phone number with an optional pre-recorded message.

The Alyssa's Law-compliant IPBTN-DIS easily integrates with VoIP phone systems and approved third-party software. ClockWise Campus® software is included.

FEATURES

› **Easy Mounting**

Easily mounts under a table, desk, or in any discreet location.

› **Phone System Integration**

SIP-enabled for auto-dial of a pre-programmed phone number with a pre-recorded message. Accommodates up to two extensions or numbers.

› **False Alarm Prevention**

Button recesses into an outer rim to prevent an accidental button press.

› **Indicator Light**

Blinks when button is pressed, turns solid when notification is sent.

› **Software Compatibility**

Compatible with included Clockwise Campus® and third-party mass notification software such as Singlewire.

› **Gunshot Detection**

Gunshot detection endpoint in our Vigilar GSD® system.

ADVANCED NETWORK DEVICES

DIMENSIONS
