

PART NUMBER  
ZONEC2

---

CATEGORY  
HUBS

## Features

### Peripheral Integration

Connect an existing amplifier, sensor, contact closure, access control device, microphone, CD/MP3 player, strobe, and more.

### Software

ClockWise Campus software included. Compatible with approved third-party software.

### SIP Integration

Call to page analog speakers.

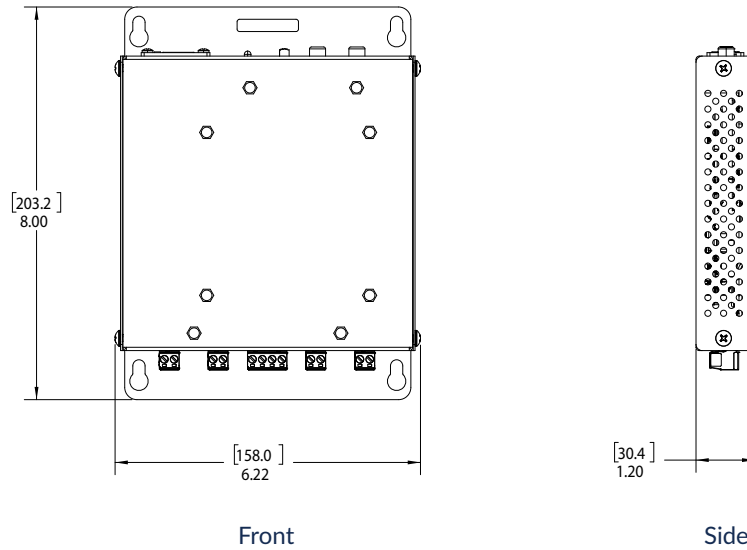

## Product Overview

Connect non-network devices to the network with the Zone Controller (ZONEC2). The full-featured, multi-purpose unit interacts directly with an organization's mass notification system, acting as a hub for a variety of devices. The ZONEC2 can broadcast audio, via the network, to existing traditional speakers that are connected to an amplifier. It can also act as an intermediary between fire panels, security systems, and sensors to automate safety procedures.

The ZONEC2 also integrates with approved third-party software and includes ClockWise Campus software with purchase.

# Dimensions

(Dimensions are subject to change.)

Category	Specifications
Power Input	PoE (IEEE802.3af) 15.4 W or PoE+ (IEEE802.3at) 30.0 W
Ethernet I/F	10/100 Mbps
Audio Power	8 W / 16 W
Speaker Output	8-ohm
Supported Protocols	SIP, IPv4, IPv6, 802.1X, HTTP, SLP, TFTP, NTP, SNMPV1 & SNMPV2c, DHCP, IGMP, ICMP, TCP/IP, LLDP-MED, UDP, MDNS & MDNS-SD
General Purpose Interface	2 GPI 1 GPO: Contact Closure or 12 VDC
Audio Interface	Analog Line In Analog Line Out
Operating Temperature	0° TO 50° C (34° TO 122° F)
Dimensions	8.0" W x 1.25" H x 6.0" D
Weight	1 lb 8 oz (680 g)
Warranty	6 Year Limited*

(Due to continual product development, specifications are subject to change without notice.)

\*Applies to eligible ANetD hardware devices purchased on or after February 1, 2026. See warranty for details.
